Wounded in Three Places, But Not Dangerously.

MARTINSVILLE, VA., November 1 .-(Special.)-A shooting scrape occurred today in this county between William Norman and Ed. Estes, both white, in which Norman shot Estes once in each arm with a pistol, and in the back with a load of shot. Bad feeling had existed between the two for some time as the result of a mortgage sale of Estes's land by Norman, Recently Estes's family, it is charged, circulated a report that Norman's wife, highly respectable woman, with some negroes, had been stealing chickens, Today Norman called on Estes in reference to the report. Both men were armed with pistols. Norman would not fire but twice, and he sent for a shotgun and used it as stated above. Full particulars have not been obtained, but from what is heard, Norman seems to have been the aggres-sor. Estes is not thought to be dangerously wounded. Norman gave himself up and furnished bail for his appearance to

# MARKET QUOTATIONS.

REPORTS FROM ALL GREAT BUSI-NESS CENTRES OF THE WORLD.

Prices of Money, Bonds, Stocks, Grain, Tobacco, Cotton, Cattle, Country Produce, &c., Foreign and Domestie.

NEW YORK, November 1.-The business in the stock market to-day was very small, and the trading amounted to little more than the passing of holdings from one hand to the other of the same per son. The professionals bought stocks in the morning and sold them in the afternoon, with the result that nearly all changes resolved themselves into very small fractions, though the latter reaction extended a little further than the early rise. The sale of the Union Pacific main line at Omaha had the effect of stiffening the price of the stock, which rose at one time 1 5-8 above the low point, and saved a part of its advantage at the close. The stock was, however, without buoy a characteristically erratic manner, dropping 2 points, rising 4 3-4, and closing the day with a net gain of 2 points. Pittsburg is higher on the day. The Grangers showed some strength during the day, but the gains were wiped out, except in the case of Burlington and Northern Pacific preferred. There was some buying of Louisville, on the showing by its September statement of an increase in net earnings of \$114,258. For the rest, brokers and operators seemed to be more interest-ed in discussing to-morrow's municipal election, and betting on the result, than

in dealing in stocks. To-day being a Bank holiday in London, no quotations were received from there to influence the results here, but there was light buying of some stocks in this market for London account.

The stiffening in the rate for call money is not regarded as likely to last, and is attributed to operations incident to the November disbursements on account of dividends and interest, which are estimated at \$30,000,000.
Railway bonds were strong in tone,

especially the Houston and Texas. Oregon Short Line, and Oregon Navigation issues. Total, \$95,000.

The total sales of stocks to-day were 164,000 shares, including the following: Chesapeake and Ohio, 21,502; Burlington, 29,951; Missouri Pacific, 7,500; Northern Pacific, 22,951; Missouri Pacific, 7,590; Northern Pa-cific preferred, 9,770; Rock Island, 6,730; St. Paul, 13,635; Union Pacific, 13,830; Bay State Gas, 15,800; Chicago Gas, 8,030; Sugar, 13,864.

FOREIGN STOCK MARKETS.

The Evening Post's London financial cablegram says: This is a holiday on the London Stock Exchange, being All Saints' Day. The tone of the money market was momentarily easier, but from indications in good quarters it looks as though money may keep fairly tight for some time to come, with only a slight set-back in the discount rate.

KLONDIKE

# British North American Trading and Exploration Co.

Organized under the laws of the State of West Virginia. Capital stock, \$5,000,000. Par value of shares, \$1 each. Full paid and non-assessable. General offices, Nos. 63 and 65 Wall street, New York city. Officers and directors:

OBJECTS OF THE COMPANY.—The chief object of the company is to carry on a general trade in and to develop the gold fields of British America and Alaska, including especially the Klondike disin and to develop the gold head of Dirthoundeveloped placer and quartz regions at the head waters of trict, and other equally rich but hitherto undeveloped placer and quartz regions at the head waters of the Yukon river, about which the company has reliable information from returned explorers and from members of Government Surveys of Canada and the United States

While other companies are trying to buy or locate claims in the gold regions this company has bought the entire property of Mr. A. E. Ironmonger Sola, of Dawson City, consisting of ten mining claims, under new regulations, and on which a force of men is now at work taking out gold. On one of these claims a prospect shaft has been sunk to within five feet of supposed bed rock, and out of which gold was taken at an average of \$1.25 per pan, actual gold, and by the use of no better method than the common sluice-box. These claims are 100 feet up and down the creek and running back to the mountain or rim rock on an average of from 200 to 1,500 feet. The pay gravel or detritus is to a depth of about or rim rock on an average of from 250 to 1,500 feet. The pay graver of detritus is to a depth of about 20 feet to bed rock. We do not undertake to say how much gold any one of these claims will produce, but when you figure that a pan produces, say \$1.25, and there being 120 pans to the cubic yard of earth, and a claim being 100 feet long by say 1,000 wide and 20 feet deep, the result is so great that it seems fabuand a claim being 100 feet long by say 1,000 wide and 20 feet deep, the result is so great that it seems fabu-lous. Yet it is a fact that some pans have produced as much as \$500 or \$600, and it is no uncommon thing to get as much as \$10 to \$20, but even at the very conservative result of \$1.25 per pan, when it is understood that this company owns ten claims on Bonanza and Last Chance creeks, right in the heart of the Klondike, it is not unreasonable to expect great fortunes to be taken from these claims; and, besides,

the company are now arranging to send a number of small prospecting parties to the Klondike regions in the early spring to continue prospecting and locating new claims, andduring that time to do a general trading business, out of which the company expect to make great profits. The personnel of the Board of Directors and the officers is such as to warrant beyond question prudent yet energetic management, which will assure the marked success of the company's business. NEW YORK DRY-GOODS MARKET.

NEW YORK, November 1.—The market for dry-goods opened without change from the conditions governing last week and last month. There is still a dearth of mail orders, and store trading is light in the extreme in all cotton lines, in woollens there is still a scattering demand. The business for the last month has been quite unsatisfactory, the more so as it was not anticipated to be so disastrous as it turned out. Conditions which came up during the month, such as the low price of cotton and the decline of printcloths in the eastern market, were chiefly responsible for this, though the prevalence of yellow-fever in the southern sections has had much to do as a contributing cause. In staple cottons the market is quiet. The situation in print-cloths is extremely unsatisfactory, the latest report being that some manufacturers are inclined to shade from the abnormal price of 23-Sc., now quoted for 64 squares.

ROANOKE. An Interesting Decision-Railroad Company Will Prosecute Him. ROANOKE, VA., November 1 .- (8)

ROANOKE, VA., November 1.—(592-cial.)—The Hustings Court convened to-day for the November term, with Judge Woods presiding. A number of important cases were disposed of. The rendering of Judge Woods's decision on the delinquent-tax cases was the chief matter of interest. It was a decision on a mandamus to require the Clerk of the court to issue the necessary papers premaratory. to require the Clerk of the court to issue the necessary papers preparatory to the transfer of delinquent real estate to applicants who desire to pay the taxes without the payment of a sufficient amount to cover all costs and taxes in advance. The mandamus was sustained and the action of the Clerk overruled. He had refused to issue the proper papers without the payment of the back taxes in advance. This decision will affect the present standing of nearly a thousand pieces of property in Roanoke.

A few evenings ago Captain Walter Hutchings, a passenger conductor on the Norfolk and Western between Roanoke and Hagerstown, was assaulted on board

norrolk and Western between Rodnoke and Hagerstown, was assaulted on board his train by a wealthy stockman namet R. H. Frazier, of Fanquier county. The assault, which came near being serkers, was not resented by the conductor. The matter was reported to the officials of the road, and they detailed Detective W. G. Baldwin to arrest Frazier, which he did, and brought him back to Roanoke Sunday morning. A preliminary hearing has been set for Saturday next. The railroad officials say they will prosecute Frazier to the full extent of the law.
